- Focus areas: Full Stack Development, AI/ML, Cloud Computing, DSA

PCM (Physics, Chemistry, Mathematics)

Expected May 2026

The Horizon School • Dehradun, Uttarakhand

EXPERIENCE

Freelance Full Stack Developer

Aug 2025 – Present

Self-Employed • Remote

- Deliver end-to-end web projects: requirements gathering, architecture, implementation, deployment, and client handover documentation.
- Build mobile-first frontends with HTML5/CSS3/JS and robust backends using Node.js, Express, and MySQL.
- Design modular Discord bots with slash & prefix commands, moderation automation, and persistent storage.
- Deploy on Vercel and Netlify; provide documentation enabling independent client management.
- [Notable deliverables: Numexa \(Discord bot platform\), Delight Restaurant, personal portfolio.](#)

Full Stack Developer — Delight Restaurant

Feb 2026

Independent Project • Remote

- Designed and developed a multi-page responsive restaurant platform with interactive menu and reservation flow.
- Implemented mobile-first UI with optimised assets for fast page loads on small-screen devices.
- Deployed and configured hosting; delivered documentation enabling independent client updates.
- [Live: delight-restro.vercel.app](https://delight-restro.vercel.app)

Founder & Developer — Numexa Discord Bot

Jan 2026 – Feb 2026

Independent Project • Dehradun, India

- Sole designer and developer of a modular Discord automation bot with slash & prefix command architecture.
- Implemented moderation, role management, and persistent leaderboard & economy storage systems.
- Built a demo and documentation landing page for client presentations.
- Engineered low-latency event handling with maintainable, extension-ready codebase.
