ADITYA UNIYAL

FULL-STACK DEVELOPER | VIDEO EDITOR | STUDENT TEAM LEADER

I build software that works and visuals that hold attention.

B.Tech CSE (2026-2030), Doon University | Dehradun, Uttarakhand, India | uaditya582@gmail.com

GitHub | LinkedIn | Developer Portfolio | Video Portfolio

PROFESSIONAL SUMMARY

Computer Science student at Doon University who builds deployed software including web apps, APIs, databases, and Discord tools. Also creates short-form video content, with an eye for product usability and visual quality. Interested in software engineering, AI-powered applications, and cloud technologies.

DEVELOPMENT Web apps, APIs and databases	HACKATHONS SIH 2026 + SRHU Solve-a-Thon	AUTOMATION Numexa Discord bot platform	CREATIVE MEDIA Reels and edits with CapCut

FEATURED PROJECTS & HACKATHONS

KRISHI-AI — Personalized Farm Intelligence

TEAM LEADER · LIMITLESS ARISE · SRHU SOLVE-A-THON

Team project selected through the online Round 1 screening of SRHU Solve-a-Thon. KRISHI-AI aims to support data-informed farming through a Digital Soil Passport, crop recommendations, a what-if farm simulator, and farmer-first guidance.

- Team selected in online Round 1 screening; representing Doon University.

Stack: AI-assisted explanations, structured farm data, rule-based calculations

LinkedIn post

Enroute — Smart Logistics Platform

SMART INDIA HACKATHON 2026 INTERNAL ROUND · TEAM AAPHAT

Collaborative logistics platform concept connecting truck drivers with unused freight capacity to customers who need transportation. Contributed to backend development, integration, GitHub workflows, and deployment.

Stack: Python, FastAPI, React, TypeScript, PostgreSQL, Vercel, Railway

GitHub

AdmitFlow — College Admission Companion

EDUCATION TECHNOLOGY · IN DEVELOPMENT

Student-focused platform for college profiles, admission notices, timelines, search, and AI-assisted question answering, designed to organise Uttarakhand admissions information.

Stack: Next.js, TypeScript, React, Tailwind CSS

Live site · GitHub

Numexa — Discord Automation Bot

FOUNDER & DEVELOPER · JAN-FEB 2026

Modular Discord bot with slash and prefix commands, moderation tools, role management, and persistent leaderboard and economy systems; includes a demo and documentation site.

Stack: Node.js, discord.js, MySQL, Vercel

Website

ADDITIONAL PROJECTS

NagrikPath — Document-to-Action Tool

PROTOTYPE

Prototype concept to help people understand official documents and identify next steps, with Hindi and English support planned.

Stack: Streamlit

Delight Restaurant — Responsive Business Website

INDEPENDENT PROJECT · FEB 2026

Responsive multi-page restaurant website with interactive menu, reservation, and contact features, built with a mobile-first approach.

Stack: HTML5, CSS3, JavaScript, Vercel

Live site

Personal Developer Portfolio

PERSONAL WEBSITE

Showcases development projects, technical skills, and case studies; built with HTML, CSS, and JavaScript.

Stack: HTML, CSS, JavaScript

Portfolio

EXPERIENCE & ACTIVITIES

CREATIVE WORK	**Video Editor & Digital Content Creator — Raftar Creates** Create short-form videos and reels in CapCut for PC, using pacing, transitions, motion graphics, and colour grading. Portfolio-listed work includes FFugy Store and Xayden Playz. View video portfolio · YouTube · Instagram
SCHOOL LEADERSHIP	**Event Organisation & Coordination — The Horizon School** Helped organise school functions through volunteer coordination, technical setup, scheduling, and stage duties. Worked with students and organisers to keep events on time.
PROJECT WORK	**Independent Software Development** Built web applications and Discord tools, contributing across frontend, backend, database integration, Git/GitHub, deployment, and documentation.
